

sdmay23-12: Unified Butterfly Recorder - Reboot

Week 13 Report

December 11 - December 18

Team MembersTimothy Ellis — *Client communication*Grace — *Organizer*Anthony Mazzie — *Cloud expert, lead developer*Zachary Wingert — *developer*Ryan McNally — *developer*Jeremiah Marchsani — *developer***Summary of Progress this Report**

Progress has been steady, we have cleared up yet more questions with our advisor.

Pending Issues

We're having some issues with getting geographical data offline, but we spoke to our client and advisor about that this week, and we have been advised to just move forward with it as is, to not get hung up on things like that for too long and to improve it later if we get a chance.

Plans for Upcoming Reporting Period

Most of the first half of the upcoming reporting period will be occupied by Fall Break, but after that we intend to start preparing for our final speech on the 8th.

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Timothy Ellis	Communicated questions to client before weekly meeting, participated in weekly meeting.	5	0
Grace	Attended weekly meeting, took meeting minutes	5
